

# WEDI NOS

The logo consists of the text 'WEDI' on the top line and 'NOS' on the bottom line, both in a bold, black, sans-serif font. A red ECG line starts at the bottom left, goes up to the top of the 'W', then down to the bottom of the 'E', then up to the top of the 'D', then down to the bottom of the 'I', and finally continues as a horizontal line across the top of the 'NOS'. A white silhouette of a person stands inside the 'I' of 'WEDI' and on the horizontal line of the ECG.

Collecting • Testing • Informing

A small, dark silhouette of a person is located in the bottom right corner of the red banner.

# September 2021

- 325 samples submitted and analysed
  - 65 substances identified
  - Samples received from across UK
    - 22 services
      - Including: Health, Substance Misuse Services, Housing and Homelessness, Mental Health Services, Education and Training, Welsh Emergency Departments, and Welsh Prisons

identifications <5**

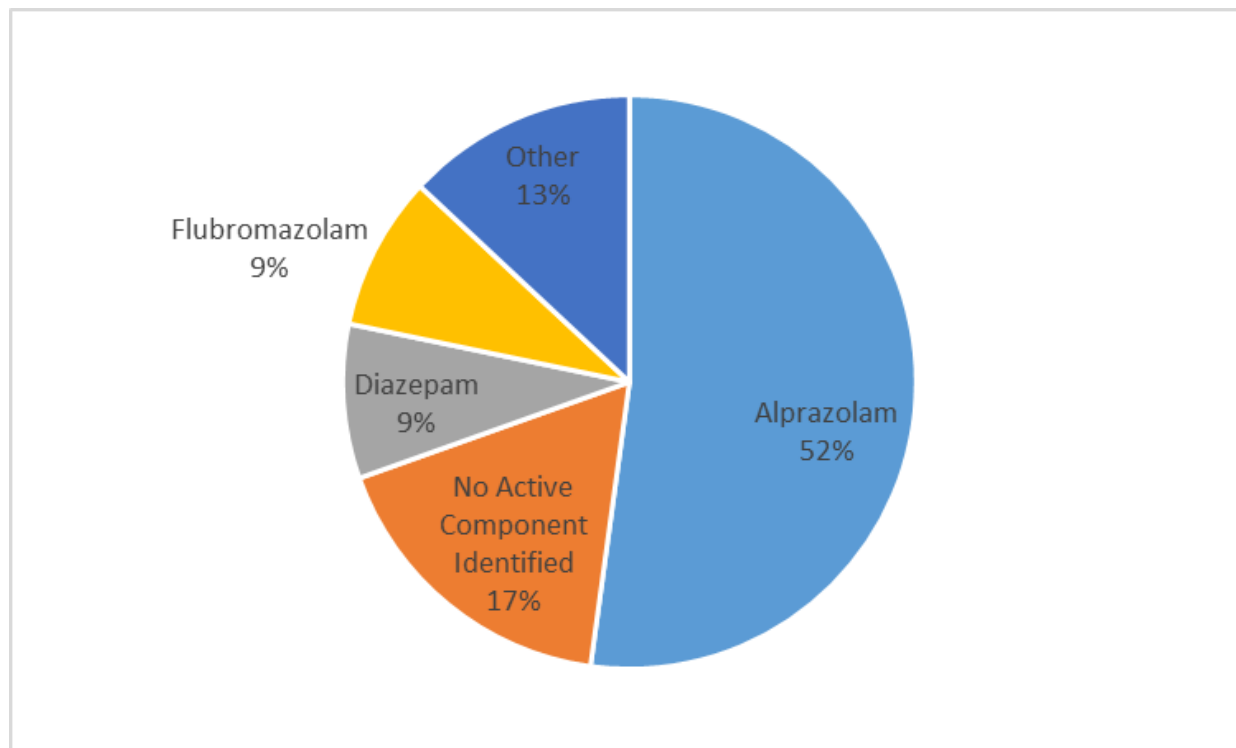

# Diazepam substitutions

## September 2021

- Diazepam
  - 82% Male / 18% Female
  - Median age: 38yrs
  - Age range: 19 to 72yrs

# Alprazolam substitutions September 2021

- Alprazolam
  - 64% Male / 36% Female
  - Median age: 31yrs
  - Age range: 20 to 46yrs

# MDMA

## September 2021

### **Pills (n=17)**

- Age range: 20 to 36yrs
- 47 per cent (n=8) contained MDMA
  - 6 samples contained 4-Chloromethcathinone (4-CMC)
  - 2C-B, alpha-PVP and modafinil were identified in one sample each

### **Powders/Crystalline (n=25)**

- Age range: 18 to 50yrs
- 52 per cent (n=13) contained MDMA
  - 8 samples contained caffeine
  - 2 contained 4-Chloromethcathinone (4-CMC)
  - Eutylone and ketamine were identified in one sample each
